

Henry Schein One Announces Availability of AI Solutions for Dentrax Ascend

March 20, 2023

AI-Based X-Ray Analysis Software and Speech-to-Text Technology Help Enhance Practice Efficiency and Improve Case Acceptance

AMERICAN FORK, Utah--(BUSINESS WIRE)--Mar. 20, 2023-- Henry Schein One, a joint venture of Henry Schein Inc. and Internet Brands, has reinforced their commitment to helping dental practices harness the power of Artificial Intelligence (AI) by fully integrating AI solutions into Dentrax Ascend, the Company's cloud-based practice management software. These solutions include Dentrax® Ascend Detect AI powered and manufactured by VideaHealth, and Dentrax Ascend Voice, powered by Bola AI.

This press release features multimedia. View the full release here: <https://www.businesswire.com/news/home/20230318005075/en/>

Both Dentrax Ascend Detect AI and Dentrax Ascend Voice offer powerful tools to help dental professionals improve case acceptance and elevate patient care through accurate diagnoses. Dentrax Ascend Detect AI is an AI-enabled X-ray analysis tool that provides real-time chairside insights to dentists and hygienists, and is powered by VideaHealth's FDA-cleared computer-assisted detection (CADe) device. With this tool embedded directly into Dentrax, and now Dentrax Ascend, oral health professionals can seamlessly use AI in dental practices within their existing workflows. The software automatically analyzes and annotates images, enabling dental professionals to more quickly evaluate x-rays and provide more effective treatment recommendations to patients. As a result, dentists and hygienists can provide greater transparency to patients, improve trust and case acceptance, and elevate patient care.

Dentrax Ascend Voice has advanced AI technology that improves speed and efficiency for dentists and hygienists when completing Perio exams and clinical notes. By letting hygienists easily record results verbally, it can improve Perio exam productivity, treatment acceptance, and patient referrals, helping to improve profitability. For dentists and hygienists, Dentrax Ascend Voice saves valuable time by simplifying their data entry.

"We at Henry Schein One are committed to bringing AI solutions to dental practices that work naturally within their current workflow, so practitioners receive the powerful benefits without adding extra steps," said Paul Hao, Chief Product Officer, Henry Schein One. "We're excited to now bring our AI enabled X-ray analysis and voice recognition solutions to our Dentrax Ascend customers, and we'll continue to invest in AI solutions that can help dentists provide the best possible patient care."
