

Dentrix Ascend and Jarvis Analytics Selected for Use Across More than 40 P1 Practice Locations

May 31, 2023

P1 Dental Partners Chooses Henry Schein One's Dentrix Ascend and Jarvis Analytics to Support the Growth of Their Dental Partnership Organization

AMERICAN FORK, Utah, May 31, 2023 – Two software solutions from Henry Schein One -- Dentrix Ascend, the leading cloud-based dental practice management software, and Jarvis Analytics™, a comprehensive dental analytics tool, were selected by P1 Dental Partners (P1) to provide its partner dentists with a seamless practice management workflow across its more than 40 practices. The addition of Dentrix Ascend and Jarvis Analytics represents P1's commitment to help drive practice success and elevated patient care.

Dentrix Ascend provides essential, cloud-based tools needed to run a dental practice and a growing dental organization. This includes tools for patient communication and scheduling, clinical care, insurance and billing, and reporting and management. Jarvis Analytics provides insights into key performance indicators across an organization to help teams understand potential areas for growth within the dental practice, while aggregating and analyzing disparate data sources across locations to improve reporting, decision-making, and performance.

"As a fast-growing organization, we need stronger enterprise capability that delivers real-time information from our practices across a standard platform," said Dr. Kelly Jastremski, CEO of P1 Dental Partners. "With Dentrix Ascend and Jarvis, we can standardize best practices and more easily focus on metrics that impact growth and patient care. This enhances our ability to help facilitate collaboration among our partner dentists. As we grow, we know our practice management foundation is strong as we no longer have to deal with the headaches of disconnected technology solutions."

Dentrix Ascend and Jarvis Analytics were selected for use after an extensive review process with P1's Clinical Advisory Board, plus dozens of additional P1 team members. In addition to the effectiveness of the individual software solutions, the quality implementation, training, and support resources offered by Henry Schein One and Henry Schein, Inc. were also taken into consideration as differentiators in the selection analysis.

"We at Henry Schein One are honored to provide P1 Dental Partners with technology and software solutions that enable the organization to achieve its growth and care goals," said Christine King, Executive Co-Chair, Henry Schein One. "P1 Dental Partners' dentists can transform the way they manage their day-to-day workflows with Dentrix Ascend's comprehensive practice management software and Jarvis Analytics dashboard."

"The Dentrix Ascend team stood out compared to the other platforms we evaluated," said Dr. Mindy Mundy-Burgett, who led the Clinical Advisory Board subcommittee, and is a P1 Managing Partner dentist. "Henry Schein One has delivered a user-friendly experience that is feature-rich, and highly secure, empowering everyone in my practice to continue to deliver excellent patient care. The Jarvis platform elevates and enhances what we do daily, and the combination is really something we are excited about."
