

A Partner in Diabetes Care: Henry Schein Medical Supports Health Care Professionals During Diabetes Awareness Month

November 5, 2024

Company Offers Essential Tools For Holistic Diabetes Management

MELVILLE, N.Y., November 5, 2024 – November marks [American Diabetes Month](#)[®], a time to raise awareness of diabetes and to support the 1.2 million Americans diagnosed with diabetes each year, and more than 38 million Americans affected by the disease¹. To help health care professionals enhance care and improve health outcomes for patients with diabetes, Henry Schein is offering its comprehensive range of diabetes management solutions.

Henry Schein Medical's diabetes care offerings include capital equipment, point of care diagnostics, laboratory, hypodermic and blood collection, and pharmaceutical solutions, such as:

- **Capital Equipment:** [Baxter RetinaVue700 Imager](#) and [Midmark steam sterilizers and chairs](#).
- **Point of Care Diagnostics:** [Abbott Afinion™ 2 analyzer and Piccolo Xpress analyzers](#), [HemoCue® Glucose 201 System and HemoCue® Hb 801 System](#), [Henry Schein TRUE METRIX Pro Blood Glucose Meter Kit and OneStep+ Pro Hb Analyzer](#), [PTS Diagnostics A1CNow and CardioChek® products](#), [Siemens DCA Vantage analyzer](#), and [Vidan Diagnostics Lucidplus™ B-Ketone Plus Blood Glucose Monitoring System](#)
- **Laboratory:** [Beckman Coulter](#), [Horiba](#), and [Siemens](#) chemistry and immunoassay analyzers. [Tosoh Bioscience](#) immunoassay analyzers, and [Sysmex](#) hematology analyzers.
- **Hypodermics and Blood Collection:** [Embecta products](#) and [Sol-Millennium lancets](#).
- **Pharmaceuticals:** [Over-the-Counter Medications and Rx](#).

“At Henry Schein, we recognize the integral role health care professionals play in helping patients manage diabetes, while offering guidance, resources, and treatment,” said Stephanie Shen, Chief Product Officer for Henry Schein's North America Distribution Group. “To help practitioners effectively manage patients' diabetes, Henry Schein provides access to a wide range of tools in a single place, from point-of-care diagnostics to remote patient monitoring. Together with our supplier partners, we are a trusted partner in helping practitioners enhance diabetes care.”

Also available through Henry Schein Medical is [Rimidi](#). Its [remote patient monitoring solution](#) for diabetes connects patient-generated data from connected devices like blood glucose monitors, continuous glucose monitors, and insulin pens with clinical data in electronic health record (EHR) systems. This helps give clinicians a more complete view of a patient's health and drives patient-specific clinical insights and actions within the framework of the latest evidence and guidelines. The platform lives within the EHR—integrating seamlessly into the provider workflow. [Click here](#) for a video from Dr. Lucienne Ide, Founder and CEO of Rimidi, who highlights three trends to watch in diabetes care.

In addition to its products and solutions, this year the Henry Schein Cares Foundation, Inc. (HSCF) launched [Prevention is Power™](#), a multi-year public health awareness campaign aimed at supporting patient adoption of a preventive, integrated health care model to improve overall health outcomes. Part of the program is to provide health care practitioners with tools to advance understanding of the connection between oral health and overall health, with one of the focus areas being diabetes and oral health.
