

Henry Schein Reports First Quarter Diluted EPS of \$0.63, up 17% on a Comparable Basis; Net Sales Increase 20% to \$886.6 Million

April 27, 2004

MELVILLE, N.Y.--(BUSINESS WIRE)--April 27, 2004--Henry Schein, Inc. (Nasdaq NM: HSIC), the largest provider of healthcare products and services to office-based practitioners in the combined North American and European markets, today reported financial results for the quarter ended March 27, 2004

Net sales for the first quarter of 2004 were \$886.6 million, an increase of 20.1% from the first quarter of 2003. In local currencies, net sales increased 16.5% including 9.6% internal growth.

Dental sales increased 14.0%, or 13.2% in local currencies (8.1% internal growth). In local currencies, Dental consumable merchandise sales increased 13.1% (7.8% internal growth) and Dental equipment sales and service revenues were up 13.6% (9.5% internal growth).

Medical sales increased 22.5% (12.3% internal growth), International sales improved 30.8% or 12.2% in local currencies (7.4% internal growth), and Technology and Value-Added Services sales grew 12.4% (8.6% internal growth).

Net income for the first quarter of 2004 was \$28.4 million or \$0.63 per diluted share. Both net income and diluted EPS were up 15%, while on a comparable basis both increased by 17%. (See Exhibit A for details.)

"With 20% growth in net sales and 17% growth in diluted EPS on a comparable basis, our first quarter financial results were solid across the board. We continued to gain market share in each of our business groups, with excellent internal growth bolstered by contributions from several strategic acquisitions," said Stanley M. Bergman, Chairman, Chief Executive Officer and President of Henry Schein.

"The quarterly performance of our Dental Group reflects continued market share gains in both dental consumable merchandise and equipment sales and service. In part, these results are reflective of our innovative Privileges and MarketOne customer-loyalty programs, which helped drive internal dental sales growth at a rate well above our estimate of market growth," explained Mr. Bergman. "International Group internal sales gains in local currencies were also ahead of our growth estimate for that market and were complemented by last year's acquisition of Hager Dental. We look forward to further International success, particularly in Europe, as we continue to execute our full service strategy."

With regard to the recently announced acquisition of the demedis/EDH Group, the Company reported that the review by the German and the Austrian governmental agencies has entered the second phase, and the transaction remains subject to their approvals.

First quarter operating margin reflects a continued change in product sales mix, particularly in our Technology and Value-Added Services Group and in the injectable pharmaceutical component of our Medical Group, where we continue adding new product lines and value added services while growing existing ones. "Our strategy to expand Medical Group product offerings further establishes Henry Schein as a full-service partner with our physician customers, grows our customer base and was a source of great enthusiasm among our field sales consultants at our recently completed annual Medical National Sales Meeting," Mr. Bergman added.

The Company reported that under a repurchase program of up to two million shares of common stock announced last year, 258,400 shares were repurchased during the first quarter of 2004 at an average price of \$69.74 per share. The impact of this share repurchase on first quarter diluted EPS was insignificant. Through the close of the first quarter, the Company has repurchased 1,593,400 shares under this initiative.

2004 EPS Guidance

Henry Schein confirmed financial guidance for 2004. Assuming the acquisition of the demedis/EDH Group closes by the end of the second quarter of 2004, Henry Schein expects full-year 2004 earnings per diluted share of \$3.57 to \$3.63. This represents growth of 15% to 17% compared with 2003 results from continuing operations. The Company noted that this 2004 EPS guidance is for current operations and the acquisition of the demedis/EDH Group, and does not include the impact of other potential future acquisitions.

First Quarter Conference Call Webcast

The Company will hold a conference call to discuss first quarter financial results today, beginning at 10 a.m. Eastern Time. Individual investors are invited to listen to the conference call over the Internet through Henry Schein's Web site at www.henryschein.com. In addition, a replay will be available beginning shortly after the call has ended.
