FOR IMMEDIATE RELEASE

HENRY SCHEIN REPORTS RECORD SECOND QUARTER
DILUTED EPS OF \$0.86, UP 16%

Net sales increase 22% to a Q2 record of \$945.7 million

MELVILLE, N.Y. - July 27, 2004 - Henry Schein, Inc. (Nasdaq NM: HSIC), the largest provider of healthcare products and services to office-based practitioners in the combined North American and European markets, today reported financial results for the quarter ended June 26, 2004.

Net sales for the second quarter of 2004 were a record \$945.7 million, an increase of 21.8% from the second quarter of 2003 (See Exhibit A for details of sales growth). This increase includes 20.3% local currency growth (12.4% internally generated and 7.9% from acquisitions net of a divestiture) and 1.5% related to foreign currency exchange. Record second quarter net income was \$38.7 million, an increase of 17.9% compared with the second quarter of 2003. Earnings per diluted share of \$0.86 represents an increase of 16.2% compared with the second quarter of 2003.

"Growth in net sales during the second quarter was outstanding, and reflects meaningful market-share gains in our Dental, Medical and International business groups through strong internal growth complemented by strategic acquisitions," said Stanley M. Bergman, Chairman, Chief Executive Officer and President of Henry Schein.

Dental sales increased by 17.1% including 16.9% growth in local currencies (13.2% internally generated and 3.7% from acquisitions) and 0.2% related to foreign currency exchange. In local currencies, Dental consumable merchandise sales increased 16.9% (13.1% internal growth) and Dental equipment sales and service revenues were up 16.8% (13.2% internal growth).

"Our Dental Group's impressive internal growth rate was two to three times our estimate for market growth and was enhanced by the successful introductions of the Colgate and Pentron product lines," explained Mr. Bergman.

- more -

Medical sales increased 24.0% (14.3% internal growth and 9.7% acquisition growth), Technology and Value-Added Services sales grew 9.7% (6.0% internal growth and 3.7% acquisition growth) and International sales improved 30.2% including 22.2% in local currencies (7.2% internally generated and 15.0% from acquisitions net of a divestiture) and 8.0% due to foreign currency exchange.

"Second quarter sales by our Medical Group continued to reflect total and internal growth significantly above market growth rates. Technology and Value-Added Services sales gains were highlighted by strong performance at our electronic services business, including dental claims processing. International Group internal sales gains in local currencies solidly exceeded our estimate for market growth, with particular strength in France, Spain and the United Kingdom. A highlight of the quarter was completing the acquisition of the demedis full-service businesses in Germany and the Benelux countries, and the KRUGG direct-marketing dental and veterinary business in Italy. We look forward to further international success, particularly in Europe, as we continue to execute our full-service dental strategy across the continent, "Mr. Bergman added.

"We are excited about our recent entry into the large, fast growing and highly profitable market for dental implants through Camlog GmbH. This excellent, new product line is consistent with our goal to bring our customers an increasing number of value-added products and services," noted Mr. Bergman.

Second quarter operating margin decline reflects a continuation of the change in product sales mix experienced during the first quarter. This change in sales mix was primarily in the injectable pharmaceutical component of the Company's Medical Group as well as, to a lesser extent, within the Technology and Value-Added Services Group.

Cash flow from operations for the second quarter of 2004 was \$81.0 million, compared with \$55.1 million for the second quarter of 2003.

Stock Repurchase Plan

The Company reported that under a repurchase program of up to two million shares of common stock announced in March 2003, 406,600 shares were repurchased during the second quarter of 2004 at an average price of \$68.72 per share and, to date, the entire two million shares have been repurchased at an average price of \$53.87. The impact of this share repurchase on second quarter diluted EPS was not meaningful. On June 21, 2004 the Company reported that, in addition to the previously announced share repurchase program, its Board of Directors has authorized the repurchase of up to \$100 million worth of shares of the Company's common stock.

2004 EPS Guidance

Henry Schein reaffirmed previous financial guidance for 2004. The Company expects full-year 2004 earnings per diluted share of \$3.55 to \$3.61. This represents growth of 15% to 17% compared with 2003 results from continuing operations. The Company noted that this 2004 EPS guidance is for current operations including completed acquisitions, and does not include the impact of potential future acquisitions.

Second Quarter Conference Call Webcast

The Company will hold a conference call to discuss second quarter financial results today, beginning at 10 a.m. Eastern Time. Individual investors are invited to listen to the conference call over the Internet through Henry Schein's Web site at www.henryschein.com. In addition, a replay will be available beginning shortly after the call has ended.

About Henry Schein

Henry Schein, a Fortune 500(R) company, is recognized for its excellent customer service and highly competitive prices. The Company's four business groups - Dental, Medical, International and Technology - serve more than 450,000 customers worldwide, including dental practices and laboratories, physician practices and veterinary clinics, as well as government and other institutions. The Company's sales reached a record \$3.4 billion in 2003. The Company operates through a centralized and automated distribution network, which provides customers in more than 125 countries with a comprehensive selection of over 90,000 national and Henry Schein private-brand products.

Henry Schein also offers a wide range of innovative value-added practice solutions, including such leading practice management software systems as DENTRIX(R) and Easy Dental(R) for dental practices, and AVImark(R) for veterinary clinics, which are installed in over 50,000 practices; and ArubA(R), Henry Schein's electronic catalog and ordering system.

Headquartered in Melville, N.Y., Henry Schein employs more than 9,000 people and has operations in 18 countries. For more information, visit the Henry Schein Web site at www.henryschein.com.

HENRY SCHEIN, INC. 2004 Second Quarter and Year to Date Details of "Comparable Basis" Growth Comparison Income Statement Summary (in thousands, except per share data) (unaudited)

	Second 2004	Quarter 2003	% Growth	Year to 2004	o Date 2003	% Growth
As Reported						
Net Income	\$ 38,736	\$ 32,855	17.9%	\$ 67,129	\$ 57,621	16.5%
Diluted EPS	0.86	0.74	16.2%	1.49	1.29	15.5%
Subtract: Gain on Net Income Diluted EPS Comparable Basis	Real Estate 	Transaction (1)	 	\$ (454) (0.01)	
Net Income	\$ 38,736	\$ 32,855	17.9%	\$ 67,129	\$ 57,167	17.4%
Diluted EPS	0.86	0.74	16.2%	1.49	1.28	16.4%

(1) In the first quarter of 2003, there was a \$726 thousand pre-tax gain (\$454 thousand after-tax) related to a real estate transaction. This gain was included in the "Other, net" line on the consolidated income statement.

Use of Non-GAAP Measures

The above 'Comparable Basis' net income and diluted earnings per share are financial measures that are not calculated and presented in accordance with accounting principles generally accepted in the United States ("GAAP"). The above table reconciles net income and diluted earnings per share, the Company's most directly comparable financial measures calculated and presented in accordance with GAAP, to 'Comparable Basis' net income and diluted earnings per share as adjusted to eliminate the effect of a real estate transaction gain which is not part of our ongoing healthcare distribution and technology operations.

Management eliminates the effect of such items to assist in evaluating the underlying operational performance of the Company's business segments over the periods presented. Management believes that this presentation is appropriate and facilitates such an evaluation by management, investors and analysts. In addition, management uses these measures for budgeting and planning purposes. These measures should be considered supplemental to, and not a substitute for or superior to, financial measures calculated in accordance with GAAP.
