FOR IMMEDIATE RELEASE

HENRY SCHEIN REPORTS RECORD SECOND QUARTER RESULTS

Sales increase 19% to \$1.6 billion Diluted EPS from continuing operations up 18% to \$0.71

MELVILLE, N.Y. - August 5, 2008 - Henry Schein, Inc. (NASDAQ: HSIC), the largest provider of healthcare products and services to office-based practitioners in the combined North American and European markets, today reported record financial results for the quarter ended June 28, 2008.

Net sales for the second quarter of 2008 were \$1.6 billion, an increase of 18.6% compared with the second quarter of 2007. This increase includes 13.6% local currency growth (4.0% internally generated and 9.6% from acquisitions) and 5.0% related to foreign currency exchange. (See Exhibit A for details of sales growth.) The Company previously announced an initiative of reducing sales of certain lower-margin pharmaceutical products. Excluding sales of those products, internal net sales growth in local currencies was 6.6%.

Income from continuing operations for the second quarter of 2008 was \$65.5 million, or \$0.71 per diluted share, up 20.3% and 18.3%, respectively, compared with the prior-year second quarter. There was no impact from discontinued operations on our 2008 results.

"Second quarter financial results reflect a strong contribution from our International Group, as well as solid growth in our Dental Group," said Stanley M. Bergman, Chairman and Chief Executive Officer of Henry Schein. "These results illustrate Henry Schein's ability to deliver consistent sales and earnings growth."

Dental Group sales of \$660 million increased 9.7%, including 8.7% growth in local currencies (7.2% internally generated and 1.5% from acquisitions) and 1.0% growth related to foreign currency exchange. Of the 8.7% local currency growth, Dental consumable merchandise sales increased 7.9% (6.3% internal growth and 1.6% acquisition growth) and Dental equipment sales and service revenues were up 11.0% (9.9% internal growth and 1.1% acquisition growth).

"Our Dental Group continues to gain market share in consumable merchandise and in equipment," commented Mr. Bergman. "We recorded another quarter of double-digit growth in equipment sales and service revenues, highlighted by gains in high-tech products, including acceleration in sales of the E4D CAD/CAM product compared with the first quarter."

Medical Group sales of \$329 million declined 8.3% (8.9% decline in internal growth and 0.6% acquisition growth). Excluding sales of certain lowermargin pharmaceutical products, noted above, internal Medical Group net sales growth was approximately 1%.

"With the progress we have made under the Medical One World initiative, coupled with the growth we have seen in Privileges enrollment, we look forward to capitalizing on future sales growth opportunities within our Medical Group," said Mr. Bergman. "We are also optimistic about the upcoming influenza vaccine season, based on current market conditions and customer order activity."

For the quarter, International Group sales of \$615 million increased 55.7%, including 39.7% growth in local currencies (10.9% internally generated and 28.8% from acquisitions) and 16.0% related to foreign currency exchange.

"Our International Group reported strong growth in all major markets, highlighted by solid Dental growth," added Mr. Bergman. "We are also pleased to report that W. & J. Dunlop continues to perform above expectations." Technology and Value-Added Services Group sales of \$41 million

Technology and Value-Added Services Group sales of \$41 million increased 29.0%, including 28.6% growth in local currencies (1.8% internally generated and 26.8% acquisition growth) and 0.4% growth related to foreign currency exchange.

"Results reflect good growth in electronic and financial services, as well as last year's acquisition of Software of Excellence, a leading supplier of innovative clinical and practice management solutions to dentists," stated Mr. Bergman. "During the second quarter we launched Easy Dental 2008, offering dentists increased functionality and improved productivity."

Year-to-Date Results

For the first six months of 2008, net sales of \$3.2 billion represent an increase of 17.6% compared with the first six months of 2007. This increase includes 12.8% local currency growth (3.5% internally generated and 9.3% from acquisitions) and 4.8% related to foreign currency exchange. Excluding sales of certain lower-margin pharmaceutical products, noted above, internal net sales growth was 6.0%. Income from continuing operations for the first six months of 2008 was \$117.8 million, reflecting 20.4% growth compared with the prior year. Earnings per diluted share from continuing operations of \$1.28 for the first six months of 2008 represents 18.5% growth over the comparable period in 2007. 2 -more-

Henry Schein announced that it repurchased 602,000 shares of common stock during the second quarter of 2008 for a total purchase price of nearly \$32 million. Approximately \$109 million remains authorized for future common stock repurchases. The impact of the share repurchases during the quarter was immaterial to diluted EPS.

2008 EPS Guidance

Henry Schein affirms 2008 financial guidance, as follows:

- o 2008 diluted EPS is expected to be \$2.93 to \$3.00, representing growth of 14% to 16% compared with 2007.
- o This 2008 diluted EPS guidance includes Henry Schein's expectation that it will distribute 12 million to 15 million doses of influenza vaccine during the year, representing earnings of \$0.13 to \$0.16 per diluted share.
- 2008 diluted EPS guidance is for current continuing operations including completed or previously announced acquisitions, and does not include the impact of potential future acquisitions, if any.
